

Feature	CorelDRAW® Graphics Suite 2019	CorelDRAW® Graphics Suite 2018	CorelDRAW® Graphics Suite 2017 & X8	CorelDRAW® Graphics Suite X7	CorelDRAW® Graphics Suite X6
Drawing Tools					
NEW! Non-Destructive effects Apply, modify, and experiment with bitmap effects on both vectors and bitmaps, all without altering the source image or object in CorelDRAW.	✓				
Symmetry mode Create a range of symmetrical designs, from simple objects to complex kaleidoscopic effects in real time, and boost your productivity by automating what is usually a very time-consuming workflow.	✓	✓			
Block Shadow tool Add solid vector shadows to objects and text with this interactive feature that reduces the time getting a file ready for output. It accelerates reprographic workflows by greatly reducing the number of lines and nodes in shadows.	✓	✓			
Corner Control in Dashed Lines and Outlines Gain more control over the appearance of corners in objects, text, and symbols that use dashed lines in CorelDRAW 2018. In addition to the existing default setting, you can choose from two new options to create perfectly designed and defined corners.	✓	✓			
Pointillizer Generate high-quality vector mosaics from any number of selected vector or bitmap objects with just a few clicks. Inspired by the Pointillism painting technique, it's great for creating vehicle wraps, window decor projects, and more.	✓	✓			
Impact tool Give your designs a little more spark! It's perfect for effortlessly adding movement or focus to an element in a drawing. Effects are non-destructive, highly customizable vector objects that can be edited with other tools.	✓	✓			
Align and distribute nodes Align and distribute nodes using the bounding box of a selection, the page edge or center, the closest grid line, or a specified point. Distributing nodes is just as easy, adding equal spacing between them horizontally or vertically.	✓	✓			
Straighten photos interactively Rotate crooked images by interactively aligning a straightening bar to an element in the photo or specifying an angle of rotation. All controls are easily accessible on screen or on the property bar for perfect results in minutes.	✓	✓			
Customize curve preview and editing Use a keyboard shortcut to replace the main color with the secondary color or vice versa and make node and handle preview easier, even in the most complex designs.	✓	✓	✓ NEW IN 2017		
LiveSketch™ tool Sketch and design on the fly! LiveSketch is a revolutionary drawing tool based on the latest developments in Artificial Intelligence and Machine Learning. Free-form sketching converts into precise vector curves.	✓	✓	✓ NEW IN 2017		

Feature

CorelDRAW® Graphics Suite 2019	CorelDRAW® Graphics Suite 2018	CorelDRAW® Graphics Suite 2017 & X8	CorelDRAW® Graphics Suite X7	CorelDRAW® Graphics Suite X6
--------------------------------------	--------------------------------------	---	------------------------------------	------------------------------------

Drawing Tools

<p>Powerful stylus enhancements Enjoy a more natural drawing experience and achieve more expressive results with advanced stylus support.</p>	✓	✓	✓	✓	
<p>Custom node shapes CorelDRAW 2018 simplifies shaping curves and objects by assigning each node type a unique shape, making it easy to identify smooth, cusp, and symmetrical nodes. You can also choose the node shapes that best suit your workflow.</p>	✓	✓	✓ NEW IN 2017		
<p>Prominent interactive sliders Easily work with object fills, transparencies, blends, extrusions, drop shadows and contours thanks to more prominent interactive sliders.</p>	✓	✓	✓ NEW IN 2017		
<p>Vector and bitmap pattern fills Preview, apply, and interactively transform both vector pattern and bitmap pattern fills using enhanced controls in the Object Properties docker. You can also save fills you've created or modified using the new .FILL format.</p>	✓	✓	✓	✓	✓
<p>Edit Fill dialog box The Edit Fill dialog box in gives you more efficient access to all available fill controls, and provides a real-time preview as you make adjustments.</p>	✓	✓	✓	✓	
<p>Fountain fills Create elliptical and rectangular fountain fills, apply transparency to individual fill color nodes, repeat a fill within a filled object, adjust a fill's angle of rotation and smooth the blend transition of a fountain fill.</p>	✓	✓	✓	✓	
<p>Support for Real-Time Stylus (RTS) You can now take full advantage of the pressure and tilt of your RTS-compatible pen, tablet or device to control your brushstrokes in CorelDRAW® and Corel® PHOTO-PAINT®.</p>	✓	✓	✓		
<p>Hide and display objects CorelDRAW allows you to hide objects and groups of objects, helping you edit objects in complex projects and experiment with your designs more easily.</p>	✓	✓	✓		
<p>Enhanced vector previews, nodes, and handles Choose custom colors for previews, nodes, and handles that will stand out against underlying colors, and help you edit objects more efficiently.</p>	✓	✓	✓		
<p>Fill Picker With both CorelDRAW and Corel PHOTO-PAINT, the Fill picker makes browsing, searching, previewing, and selecting fills quick and easy. The Fill picker also provides access to both locally stored fills and those available in the Content Exchange.</p>	✓	✓	✓	✓	
<p>Fill creation Instantly create and save bitmap pattern and vector pattern fountain fills from selected objects in your workspace.</p>	✓	✓	✓	✓	
<p>Smoothing vector objects Remove jagged edges and reduce nodes in curve objects with the Smooth tool.</p>	✓	✓	✓	✓	
<p>Mesh Fill Design multi-colored filled objects with more fluid color transitions. Reveal objects behind individual nodes with a transparency option.</p>	✓	✓	✓	✓	✓

User Interface

NEW! Objects docker

The new Objects docker gives you direct control over the structure of a document and fast access to its components, helping you work faster and smarter.

ENHANCED! Options workflow

Tailor your design environment to your needs with the help of the reorganized interface for setting document, application, and suite-wide preferences.

File Save indicator

See which files contain unsaved changes when working with multiple documents simultaneously in CoreIDRAW and Corel PHOTO-PAINT.

Apply and manage fills and transparencies

Enjoy the totally redesigned Fill and Transparency pickers that will help increase your productivity and deliver improved performance when working with and managing fills and transparencies in CoreIDRAW and Corel PHOTO-PAINT.

Touch-friendly user interface

Tablet Mode support helps you sketch on the fly and make quick adjustments using touch or a stylus. Plus, the new Touch workspace streamlines the UI to maximize the size of your drawing window by displaying only the tools and commands you're most likely to use.

NEW IN 2017

Microsoft Surface support

CoreIDRAW Graphics Suite 2018 offers native Microsoft Surface Dial support on Windows 10. Use the CoreIDRAW and Corel PHOTO-PAINT applications in the suite, to experience one of the most unique ways to create and interact with technology.

NEW IN 2017

Import legacy workspaces

Reuse CoreIDRAW and Corel PHOTO-PAINT workspaces that were created in CoreIDRAW X6, X7, and X8. Import the workspace into your current workspace, or create a totally new UI configuration. Plus, enjoy the flexibility of choosing which workspace elements to import or export.

NEW IN 2017

Customize color of window borders

You can customize the color of window borders in CoreIDRAW and Corel PHOTO-PAINT to match your personal preference.

Welcome Screen

The new Product Details page in the Welcome screen is your one-stop source for the latest on the suite and your user account. Learn about your product or subscription, account status, product updates, available resources, workspace selection and the new Upgrade Program.

Workspaces

Choose from a variety of workspaces designed for different proficiency levels and specific tasks: Page Layout and Illustration, a Classic option for longtime users, a Lite option for new users, and workspaces with the look and feel of Adobe Photoshop and Adobe Illustrator.

Support for UltraHD 4K displays

An updated interface and support for 4K displays let you comfortably view the applications on even UltraHD (ultra high definition) monitors.

Advanced multi-monitor support

CoreIDRAW and Corel PHOTO-PAINT function reliably across multiple monitors of varying DPI, on all supported operating systems.

Optimized for Windows 10 support

With support for Windows 10, you can confidently use CoreIDRAW Graphics Suite on the latest Windows operating system.

User Interface

Customize Desktop color

You can change the color of the desktop, the area surrounding the drawing page in CoreDRAW or the image in Corel PHOTO-PAINT to suit your documents.

Fully scalable and customizable UI

You can adapt your design space to your needs with the updated and fully customizable interface. Newly designed icons allow scaling up to 250%. You can lighten or darken the application background by choosing a theme.

Simple customization

Tailor the toolbox, dockers, and property bars to suit your workflow using the Quick Customize buttons.

Overflow buttons

For tablet and mobile device users, overflow buttons indicate the presence of additional tools, dockers and controls that don't fit within the workspace.

Multiple document interface

Work with multiple documents in a tabbed view.

Undocking documents

Drag a document outside of the application window to undock it when working with multiple documents.

Image Editing

PhotoCocktail

Create stunning photo collages. Start with a photo or vector object as the foundation of your mosaic, then choose a library of bitmap images as the mosaic tiles, and let PhotoCocktail do the rest.

Bilinear zooming

Get another magnification option with the introduction of bilinear zooming. It adds pixels by averaging the color values of surrounding pixels when zooming out, which prevents jagged edges and improves the display quality of sharp images that have fine detail.

Adjust photo perspective interactively

Use the interactive Perspective Correction tool to adjust the perspective of buildings, landmarks, or objects in photos. Simply line up the four corner points with a shape that should be rectangular to adjust the entire shot.

AfterShot 3 HDR

Download Corel® AfterShot™ 3 HDR from within CorelDRAW and Corel® PHOTO-PAINT®, to make professional-grade corrections and enhancements to RAW or JPEG photos.

HDR Merge

Create high dynamic range (HDR) images with the HDR module included in AfterShot 3 HDR.

Stylus support

Take advantage of pressure, bearing, tilt, and rotation when using the touch-up tools, the Eraser tool, the Paint tool, and other brush tools.. What's more, you can experiment with rotation, flatness and elongation settings to get an even greater range of artistic possibilities.

NEW IN 2017

Healing Clone

The new Healing Clone tool in Corel PHOTO-PAINT lets you fix imperfections seamlessly by painting with sampled texture that matches the color of the surrounding area.

Feature

CoreDRAW® Graphics Suite 2019	CoreDRAW® Graphics Suite 2018	CoreDRAW® Graphics Suite 2017 & X8	CoreDRAW® Graphics Suite X7	CoreDRAW® Graphics Suite X6
-------------------------------------	-------------------------------------	--	-----------------------------------	-----------------------------------

Image Editing

<p>Gaussian Blur effect The Gaussian Blur special effect in Corel PHOTO-PAINT is available as a lens that lets you blur images non-destructively.</p>	✓	✓	✓	✓	
<p>Liquid tools In Corel PHOTO-PAINT, four pressure-sensitive Liquid tools—Smear, Attract, Repel, and Twirl—offer fresh creative options for retouching photos.</p>	✓	✓	✓	✓	
<p>Unsharp Mask Lens Sharpen photos by increasing the contrast of adjacent pixels while preserving both high- and low-frequency details, such as edges and large structures.</p>	✓	✓	✓	✓	
<p>Interactive brushstroke transparency and feathering Use modifier keys to interactively adjust the transparency and feathering of brushstrokes.</p>	✓	✓	✓	✓	
<p>Special effects Corel PHOTO-PAINT introduces new camera effects, including Bokeh blur, Colorize, Sepia Toning, and Time Machine.</p>	✓	✓	✓	✓	
<p>Planar Mask tool Use the new Planar Mask tool in Corel PHOTO-PAINT to define a feathered editable area along parallel lines. When combined with a blur effect, you can simulate depth of field, giving focus to a particular object while blurring areas outside the planar mask.</p>	✓	✓	✓	✓	
<p>Lens corrections Adjust your images to remove pincushion and barrel distortions with the new Correct lens distortion slider in the Straighten Image dialog box.</p>	✓	✓	✓	✓	
<p>Smart Carver Easily remove unwanted areas from a photo and simultaneously adjust the photo's aspect ratio.</p>	✓	✓	✓	✓	✓
<p>Pass Through Merge Mode Achieve greater control when applying a lens or effect to a group of objects.</p>	✓	✓	✓	✓	✓
<p>Interactive Straighten Quickly and easily straighten images with interactive controls.</p>	✓	✓	✓	✓	✓
<p>Photo effects Spice up your photos with Vibrance, Grayscale and Photo Filter effects.</p>	✓	✓	✓	✓	✓
<p>Tone curve adjustments Adjust image tone with more accuracy and precision.</p>	✓	✓	✓	✓	✓

Typography

<p>Embedding Rights font filter Ensure hassle-free file sharing with the new Embedding Rights font filter to sort fonts based on four common font-embedding permissions and identify which fonts to use or avoid when choosing text styles. Use the font filtering feature to find specific fonts.</p>	✓	✓			
<p>Corel Font Manager™ Organize and manage your font library with the intuitive Corel Font Manager and use your favorite fonts without installing them, and work faster with fonts using the network storage feature.</p>	✓	✓			

Feature	CoreDRAW® Graphics Suite 2019	CoreDRAW® Graphics Suite 2018	CoreDRAW® Graphics Suite 2017 & X8	CoreDRAW® Graphics Suite X7	CoreDRAW® Graphics Suite X6
Typography					
Special characters, symbols, and glyphs The revamped Insert Character docker presents all characters, symbols and glyphs associated with a selected font, making it easier than ever to find these items and then insert them into your documents.	✓	✓	✓	✓	
Font embedding Embed fonts when you save CorelDRAW documents so that recipients can view, print, and edit the document exactly as designed.	✓	✓	REDESIGNED	✓	✓
Font list box With the new Font list box in CorelDRAW and Corel PHOTO-PAINT, you can view, filter, and find fonts easily.	✓	✓	✓		
Advanced OpenType support Take greater advantage of advanced OpenType typography features, such as contextual and stylistic alternates, fractions, ligatures, ordinals, ornaments, small caps, swashes, and more.	✓	✓	✓	✓	✓
Complex script support Ensure proper typesetting for glyphs used by Asian and Middle Eastern languages.	✓	✓	✓	✓	✓
Font Playground Browse, experiment, preview and choose the perfect font using the Font Playground docker.	✓	✓	✓	✓	
OpenType support for Asian text Apply advanced OpenType typography features, such as widths, forms, vertical metrics, kana glyph alternatives and rotation to Asian text.	✓	✓	✓	✓	
Accessing Design Assets					
ENHANCED! Digital asset management Take advantage of redesigned UI to work more easily with images, fills, fonts, and more. Plus, use the new CONNECT Content docker to quickly find vector and raster images.	✓				
Default folder location Find and share design assets with ease! You choose where to store content rather than use the default folders.	✓	✓			
Advanced content organizer The CONNECT™ Content docker provides access to all included content, while also helping you acquire additional content from online vendors. Work with several trays concurrently, which gives you increased flexibility for organizing assets for multiple projects.	✓	✓	✓	✓	✓
Blank Document/Image presets Choose from a range of preset destinations, document sizes and color settings with the Create New Document/Image dialog box.	✓	✓	✓	✓	✓
ENHANCED! Template workflow A redesigned template workflow helps boost your productivity. Download new templates, add your own library, migrate a collection anywhere, and more — all within the suite.	✓				
High-quality Thumbnail previews Easily find and organize CorelDRAW and Corel PHOTO-PAINT files.	✓	✓	✓	✓	✓
Syncing trays with Microsoft OneDrive Sync Corel CONNECT trays with Microsoft OneDrive for cloud-based access to your projects on other computers or mobile devices.	✓	✓	✓	✓

Layout Tools

Toggle snapping

Turn off snapping options with a click of the Snap Off button, or use keyboard shortcuts to toggle snapping on or off. Disable snapping as you're repositioning without having to release the cursor.

Fit Objects to a Path

Fit any type and number of objects to a path of your choice. Smart spacing and rotation settings help you customize the arrangement of objects along the path.

Add Perspective effect

Quickly create the illusion of distance and depth by applying perspective to bitmaps, vector objects or both directly in the drawing window. It's an ingenious tool to showcase artwork in real world scenarios.

Apply envelopes to bitmaps

Shape a bitmap interactively by placing it in an envelope and dragging its nodes. Quickly and seamlessly blend a bitmap into an illustration by using envelope presets or crafting a custom envelope from scratch.

Master Layers

Master Layers make it easier to create page-specific designs for your multi-page documents.

Page numbers

Easily add page numbers—alphabetic, numeric, or roman—on all pages of a document, starting on a specific page, or starting at a particular number.

Interactive frames

Populate PowerClip objects with placeholder graphic and text frames, making it easier to preview your design before finalizing the individual content components.

Tables

Create and import tables to provide structured layouts for text and graphics.

Web

NEW! Sharepoint Integration

Gain additional collaboration and sharing benefits from the new connectivity to Microsoft SharePoint sites. Get direct access to your organization's Document Management System (DMS) from within the visual communication authoring applications. Only available for CorelDRAW Graphics Suite Enterprise License

NEW! CorelDRAW.app

Turn good ideas into great designs, the moment they arise with CorelDRAW™.app. New as part of CorelDRAW Graphics Suite 2019, this powerful web app enables you to access your work whenever and wherever it's convenient for you.

Publish to WordPress

Send your work directly to a WordPress media library from within the application. This new functionality lets you convert selected objects or an entire project to a JPEG, GIF, or PNG file and then upload to a WordPress account.

Design in pixels

View and create drawings in actual pixel units with the Pixel Preview mode, which gives you a more accurate representation of how your design will appear on the Web.

Feature

--------------------------------------	--------------------------------------	---	------------------------------------	------------------------------------

Design Workflow

<p>NEW! Pixel-perfect workflow CorelDRAW 2019 takes the guesswork out of creating clean, crisp images for the web with several new features that ensure pixel-perfect precision.</p>	✓				
<p>NEW! Find and Replace docker Locate drawings components and change their attributes faster than ever with the new Find and Replace docker in CorelDRAW.</p>	✓				
<p>Project Timer Keep organized, bill clients, and gain time management insight with an accurate, non-intrusive way to track project time. Appearing as a discreet toolbar above the drawing window, the Project Timer is fully customizable to match your workflow.</p>	✓	✓			
<p>Powerful stylus capabilities Use pressure to vary the size of the eraser nib, and also link the tilt and bearing to its flatness and rotation. Flipping the stylus or pen activates the Eraser tool to erase on the fly without using the toolbox.</p>	✓	✓			
<p>Microsoft Surface Dial support Get enhanced support for wheel devices, such as the Microsoft Surface Dial. Experience an alternative and more intuitive way of working in CorelDRAW by using touch and dial alone. Put your keyboard aside and try the contextual onscreen UI.</p>	✓	✓			
<p>Color Styles docker View, arrange and edit color styles and color harmonies using the enhanced Color Styles docker. Add the colors used in a document as color styles, which makes it easier than ever before to implement a color change throughout a project.</p>	✓	✓	✓	✓	✓
<p>Context-sensitive Object Properties docker The redesigned Object Properties docker has a new tab option that presents only one group of formatting controls at a time, making it easier to focus on the task at hand. Fine-tune your designs with object-dependent formatting options.</p>	✓	✓	✓	✓	✓
<p>Transparency Transparency settings make it faster and easier to apply and adjust object transparency.</p>	✓	✓	✓	✓	✓
<p>Styles engine and docker Easily create outline, fill, character, and paragraph styles and Style Sets, which are groups of styles that you can later edit once and have the changes applied instantly throughout a project.</p>	✓	✓	✓	✓	✓
<p>Color management Set application color policies to achieve the most accurate color representation with the Default Color Management Settings dialog, which gives greater control to advanced users.</p>	✓	✓	✓	✓	✓
<p>PANTONE spot color palettes Get support for the latest spot color palettes, plus new palettes from PANTONE.</p>	✓	✓	✓	✓	✓
<p>Drop shadows with Gaussian Blur feathering Drop shadows in CorelDRAW now look more realistic because they use Gaussian Blur feathering.</p>	✓	✓	✓		
<p>Expand your collection of creative tools Download free or purchase applications, plug-ins, and extensions directly from within CorelDRAW and Corel PHOTO-PAINT.</p>	✓	✓	✓		
<p>Align and Distribute docker The Align and Distribute docker provides quick and easy access to all available alignment options so that you can position objects with precision.</p>	✓	✓	✓	✓
